Senate Inquiry into Middle Arm Sustainable Development Precinct

Tamboran Resources Corporation (ASX: TBN) Managing Director and CEO, Joel Riddle, said:

“For Senator Hanson-Young or anyone else to state the gas industry was not willing to appear at the Middle Arm Inquiry in Darwin is false. Tamboran told the Senate Committee as early as last year we would appear, had provided confirmation of attendance and witness names.

“As late as last Friday we were told to expect a formal invitation to appear on April 11, however on Sunday afternoon, we were told we weren’t on the agenda and dropped by the Committee without warning or explanation.

“As it stands, this hearing is an echo chamber for radicals. We will relish the opportunity to appear and make the case for the 20,000 industry and manufacturing jobs in Middle Arm, whether that be appearing in the NT, Canberra, or anywhere else for that matter.”

About Tamboran Resources Corporation

Tamboran Resources Corporation, (“Tamboran” or the “Company”), through its subsidiaries, is the largest acreage holder and operator with approximately 1.9 million net prospective acres in the Beetaloo Sub-basin within the Greater McArthur Basin in the Northern Territory of Australia. The Company is focused on playing a constructive role in the global energy transition towards a lower carbon future, by developing a significant natural gas resource within the basin.

Tamboran’s key assets include a 38.75% working interest and operatorship in EPs 98, 117 and 76, a 100% working interest and operatorship in EP 136 and a 25% non-operated working interest in EP 161, which are all located in the Beetaloo Basin.

Tamboran will focus on the proposed Shenandoah South Pilot Project, where Tamboran has a 47.5% working interest and is targeting first gas flows in H1 2026, and the proposed Northern Territory LNG (NTLNG) development at Middle Arm in Darwin, targeting gas production for NTLNG by the end of 2030.
